

*Conference on*  
**"ADVANCES IN STEM CELL RESEARCH"**

**Milano, Italy, April 6-7, 2005**

The EuroStemCell Consortium, together with the University of Milano, announces an International Conference on "Advances in Stem Cell Research", to be held in Milano on April 6-7, 2005. The scope of the meeting is to bring together scientists from all over Europe to discuss the current status of basic and clinical stem cell research.

Full details and a Registration Form are available at <http://www.eurostemcell.org>

The conference has been awarded **11 ECM/CME (continuing medical education) credits** by the Italian Ministry of Health.

We hope that you and your colleagues will be able to attend.

With best regards,

Elena Cattaneo, PhD  
Department of Pharmacological Sciences and Center of Excellence on Neurodegenerative Diseases,  
Università di Milano

Austin Smith, PhD  
Institute for Stem Cell Research, University of Edinburgh
